# About the Company

# Our History - The VMO Group

---

The journey of our organization began in 2018, when a vision was conceived to establish a diversified group of companies committed to delivering innovative solutions across multiple industries.

That vision became a reality in 2022 with the official incorporation of VMO Aero, laying the foundation for what would become a growing and dynamic business.

In 2023, the organization took another significant step forward by expanding its team and establishing its first physical office, creating the operational base required to support future growth.

By January 2024, commercial operations officially commenced with VMO Aero and VMO Agro, marking the beginning of active service delivery and business expansion.

- Virtual meetings are still meetings, and meetings call for professionalism. You can relax more on Zoom calls, but there is a fine line between dressing down during internal team calls and playing with a five-year-old during external meetings.
- By familiarizing yourself with our virtual meeting etiquette tips, you save yourself the company embarrassment and prevent uncomfortable conversations.
- Tips like:
  - Mute your microphone upon entering the call
  - Use headphones to minimize noise
  - Keep your webcam feed on except instructed otherwise
  - Broadcast from a clean space or use a neutral background
  - Limit virtual meetings to one hour or less

# Meeting Etiquette; Virtual/Physical Cont.

General tips to take note of while working remotely:

- Choose a quiet and distraction-free working space

- Dedicate your full attention to your job duties during working hours

---

- It is also important to note that mental preparation is crucial for all meetings. Stay ready at all times
- Dress appropriately: generally business meetings call for the official business dress code except stated otherwise. However, the uniqueness of a company/department will come in play
